ABOUT ME

I am a Web Developer with 6 to 7 months of internship experience, during which I completed one web application project as part of a team. I work with frontend tools like Vue.js, Tailwind CSS, Bootstrap, and jQuery, and backend frameworks such as Spring Boot and ASP.NET. I'm also learning Laravel to enhance my backend skills.

I enjoy collaborating with team members, communicating clearly, and supporting users with technical issues. I handle both frontend and backend tasks, connect APIs, manage databases, and solve problems efficiently.

I'm seeking opportunities to grow, work on real projects, and further develop my web development skills.

WORK EXPERIENCE

Internship - ACLEDA University Of Business

Software development

Dec 2024 - Aug 2025

- Developed and maintained web applications using HTML, CSS, JavaScript, jQuery, Bootstrap, Tailwind CSS, and ASP.NET
- Collaborated with the team to design user interfaces and improve user experience
- Assisted in backend development using ASP.NET and SQL Server database management
- Used Git and GitHub for version control and teamwork.
- Worked with Figma to create and implement design prototypes.
- Learned and practiced web development best practices and debugging.

EDUCATION

Bachelor's Degree in Computer Science And Engineering

ACLEDA University of business, Cambodia

2023 - Present

- Gained practical experience in web design, backend development, and database system
- Learned programming languages including C#, Java, and PHP
- Built applications using frameworks such as Django and worked with REST APIs
- Studied database technologies like SQL Server, MySQL and Oracle
- Gained foundational knowledge in UI/UX design and mobile development for Android
